PROFILE

Computer Science student and AWS Certified Cloud Practitioner skilled in full-stack development, cybersecurity, and cloud technologies. Experienced in problem-solving with 400+ LeetCode solutions and committed to building scalable, secure, and efficient applications.

EDUCATION

B.Sc CS with Cyber Security

Rathinam Global University

CGPA: 8.12

07/2024 – Present

Coimbatore

SKILLS

Programming Languages

C, C++, Python, Java, JavaScript, HTML, CSS

Libraries/Frameworks

ReactJs, NodeJs, ExpressJs, Typescript, Tailwind CSS, React Native & Expo

Tools / Platforms

Git, GitHub, AWS, Linux, Nginix, PM2, VS Code, Postman, Bash

Databases

MongoDB, PostgreSQL

PROJECTS/OPEN-SOURCE

Chatify 🔗

MERN, Socket.io, AWS EC2, Nginix, PM2, Tailwind CSS, Jwt

- Developed a real-time one-to-one chat application with JWT authentication, socket.io messaging, and rate limiting to enable secure, scalable, and responsive communication.

Social Platform 🔗

ReactJS, NodeJS, ExpressJS, MongoDB, Cloudinary, Jwt

- Built a MERN-based social media platform with JWT authentication, posts, likes, comments, follows, profiles, and Cloudinary media integration.

ATS Resume Analyzer 🔗

ReactJS, TypeScript, Puter.JS, React-Router, Tailwind css

- Developed an AI resume analyzer with LLM-based evaluation for ATS scoring, keyword analysis, and resume improvement insights.

Zentrix 🔗

MERN, Python, Socket.io, Electron.Js

- Built a desktop SOC platform integrating SIEM, EDR, IDS, malware analysis, phishing detection, and automated threat monitoring.

Inba Mart 🔗

TypeScript, ExpressJs, MongoDB, Tailwind CSS

- Developed a scalable multi-vendor e-commerce platform using MERN with vendor onboarding, product management, secure authentication, and order processing.
